DON'T JUST TAKE IT AS RED THIS VALENTINES DAY

It might be synonymous with passion, roses and hearts, but Valentine's Day does not always have to be based around the colour red. Try something a little less obvious this year and schmooze your loved one with subtlety as Peacocks select the must-have Valentine's presents.

Relinquishing the red, keep your partner in the pink with the perfect lingerie as a luxurious Valentine's gift. Stunning sets from under £10 featuring diamante detail, black lace and pink ribbon mean that Peacocks will pave the way for your romantic gesture to really mean something. Choose from a selection of styles including a sexy basque, balconette or lightly padded bras with matching thongs or briefs.

However, for those die hard red devils, Peacocks have not totally excluded you. There's always the red *'squeeze me slowly'* emblazoned short (£2) guaranteed to raise a smile – if not your blood pressure.

For the funsters who can't keep out of the red, hit the right note with musical cushions. A **lip shaped pillow** (£5) plays refrains of *'I'm too Sexy'* whilst a **pink velvet heart** shaped cushion sings *'Baby Love'* when squeezed in the right places. If it's advice on love issues you need, the **love predictor heart** (£3.50) answers your questions. The hand held heart gives out frank and impartial answers when held in the right places!
