PRESS RELEASE

**Strange name...Amazing product
Meet the Remoska**

The Remoska® - It's got to be used to be believed, it cooks better than an oven and is positively miserly with electricity - your oven will hardly ever need to be switched on. Produces roast chicken pieces (crispy skin, flesh as soft as butter); succulent lamb chops with golden roasted potatoes; toad-in-the-hole and fish bake. For snacky moments, rustle up toasted sandwiches, baked potatoes, pizzas from frozen; even reheats ready meals in their

foil dish. For those with a sweet tooth, also produces light, moist sponge cakes and delicious scones.

The Remoska has been around since before the Second World War, surviving 40 years of nationalisation until being rescued in 1990 by two Czechs, who scraped together all they had to buy the machinery. Each Remoska is individually made and tested by skilled workers in a small Czech factory; there's no production line.

The stainless steel lid, which houses the element, does all the work, controlling the venting of steam developed during cooking. See what's going on through the glass window and you'll be impressed by how clean it is in use, with virtually no cooking smells either. The pan is also coated with Teflon® Classic for easy release.

Being so compact, the Remoska is ideal whether at home or on holiday in the caravan or boat, or anywhere there is a 240v power supply.
